Minutes of the meeting of March 27, 2017 – motion to approve by Dave Upton, second by Russ, all in favor

MINUTES

Safety Building

- Jerry Tepe is walking through the Safety Building this week, Dave will report back to TBC since it's likely none of us can attend.
- Discussion of whether it's possible to turn the training room in the garage into a storage room. It will cost a lot to fireproof that space, which is currently only barely walled in. Can the other space be reconfigured? Dave U to ask department heads for input.
- Concerned about getting access to contractors during the busy summer season. This is indoor work so this can happen in the Fall or early Winter.

Fuel Tank Move

- TBC would like to see a revised drawing from Gary R.

Next Meeting
