

Minutes of the Meeting of the Nelson Sustainability Group, 6/25/16

Present: Michael Iselin, Dave Bower, Gary Robinson, Dave Upton

No meeting was held due to the lack of a quorum being present.

Those present entered household energy use data into the Carbon Globe Carbon Footprint Calculator and agreed that the results were informative and interesting. Time available ended before the EPA and UC Berkeley calculators could be tested. The group agreed to run all three calculators with their own household data and return in a week to compare results.

Michael and Dave asked Kris Finnegan if they could continue the discussion of the use of a household carbon footprint calculator in the Library at 11 am on 7/2. Kris agreed to make the Library available at that time for that purpose.

Respectfully submitted,

Dave Upton
