

Minutes of the Meeting of the Nelson Sustainability Group, 7/21/16

Present: Wally Francis, Gary Robinson, Dave Upton

No meeting was held due to the lack of a quorum being present.

Those present discussed their personal results obtained using the UC Berkeley Carbon Footprint Calculator. All agreed that participation in this exercise could raise community awareness of household contribution to Global Warming.

The group discussed the need to find a way to take action to begin reducing carbon emissions from our community. It was agreed that a plan to reduce our municipal carbon footprint would demonstrate intent and hopefully motivate individuals to follow.

The group agreed to meet again on August 18 at 7 pm in the Town Office.

Respectfully submitted,

Dave Upton
