

SELECTMEN MEETING
MAY 18, 2011

Attending: Michael Blaudschun, Chair; Warren Hammack, selectmen. Margaret Schillemat, was absent.

Others Attending: Hope Lothrop, Peter Berenger, Trustee Trust Funds; John Shey, Treasurer; Maury Collins, Patricia Menses and John French Maury Collins, .

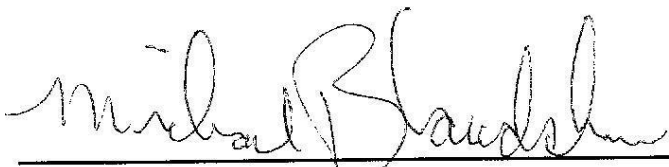

Mike opened the meeting at 6:40pm, seconded by Warren.

Hope, Peter, John and the selectmen met to talk of the PDIP account, the Public Deposit Investment Pool which is a fund to move monies from a school PDIP Trust Fund to the General school PDIP fund. Peter will do a transfer of funds to the proper accounts for Hope to pass on to the school funds. Hope gave John the name of Joan Klackston of CutWater Assests to call for more information. The decision was made for The Treasurer John Shey to borrow a sum of money to sustain the town until taxes can come in for the month of June.

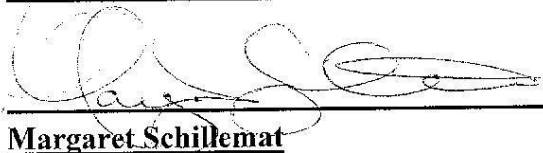

Maury Collins came to talk to the selectmen about looking into different Vendors for fuel, electric etc. He asked if he could have bills for the PSNH and the selectmen said he could as long as the account numbers were not visible. Linda will copy the bills for him. The selectmen also asked him if he wanted to look into what the County is doing now. It appears that they want to pass the Mutual Aid dollars off onto the towns. Last years cost was approximately \$8200. It will be a great deal more if each individual town has to pay. Mike and Warren both told Maury that any kind of an agreement made by the Moving in Step Group would not be binding as they do not represent the Town of Nelson and they are not a Town representative group.

The Geraniums were ordered from Barrett's Greenhouse for the Memorial Day Festivities. There will be 175 geraniums this year. Mr Barrett gave the Town a very generous discount as all other places were much higher as we checked around before ordering.

Mike adjourned the meeting at 9:20pm, seconded by Warren. Motion carried.

Michael Blaudschun, Chairperson

Margaret Schillemat
